

BNI[®] Foundation

Support the
BNI Foundation

What is the BNI Foundation?

The BNI Foundation helps children to get a better education – underserved and underprivileged children, children at risk. Why children, why education? Because while children are only 20% of our population, they are 100% of our future.

Founded in 1998 by Beth and Dr. Ivan Misner, **the BNI Foundation Worldwide Inc. is a US-based non-profit organization which has raised over \$3 Million** to support the educational needs of young people. Other registered BNI Foundations have existed in Japan, Canada, France and Germany for many years and have recently been joined by Australia, Spain, the UK, Vietnam and, most recently, Belgium and India.

But the BNI Foundation is much more than individual legal entities in these 11 countries – it is a way for BNI members, directors and chapters to support children in their local communities in EVERY country where BNI is Changing the Way the World Does Business.

How do we support children's education?

Givers Gain Grants

Grants are generally for \$1,000 or the local equivalent and are funded from donation income received. They are available to support educational organizations which make a lasting impact on the future of their students.

Grants are awarded twice a year with an open application process lasting 6 weeks. If you know of an organization which would benefit from receiving a Givers Gain Grant, contact info@bnifoundation.org for more information.

Business Voices

Business Voices projects focus on how BNI members, directors and chapters can use their time, talent, knowledge and experience to help children in the communities in which they live and work.

Business Voices Teams can be initiated by any BNI Member in any chapter around the world. Contact info@bnifoundation.org to learn more and get started.
